SUMMARY

Full-stack web developer with over 5 years of experience in designing, developing, and maintaining robust web applications. Proficient in modern technologies including TypeScript, JavaScript, React, Node.js (Express.js), MySQL, MongoDB, and RESTful APIs, with a strong focus on performance, scalability, and accessibility standards.

Hands-on experience in cloud development projects, particularly on Fujitsu Cloud, with working knowledge of Microsoft Azure including cloud data management, security protocols, and networking fundamentals.

Proven expertise across the Programing (PG), Testing (PT), and Implementation (IT) phases of software development, along with practical skills in networking and security.

Demonstrated ability to collaborate effectively in multicultural teams, maintaining a professional and supportive attitude with colleagues and supervisors of diverse nationalities. Committed to delivering quality results and capable of working extended hours when required.
